

# GDG DevFest Istanbul 2016

## WHAT IS GDG?

Google Developers Group (GDG) - is open and volunteer geek community who create exciting projects and share experience about Google technologies with a passion.

**1 NON-PROFIT CONFERENCES**  
GDG DevFests are large, community-run events that can offer speaker sessions across multiple product areas, all-day hack-a-thons, code labs, and more.

**2 FOR YOU**  
Each GDG DevFest will be inspired by and uniquely tailored to the needs of the developer community that hosts it.

**3 NEW OPPORTUNITIES**  
DevFests provide enormous opportunities to network with amazing people. There will be a lot of developers, students, entrepreneurs, startup enthusiasts and working professionals from various companies or universities.

**4 UNIQUE**  
While no two events will be exactly alike, each GDG DevFest will, at its core, be powered by a shared belief that when developers come together to exchange ideas, amazing things can happen.

### World Wide

DevFest are worldwide events. Every year, we have more than 200 DevFest provided by GDGs all around the world.

## Let's See What Happened Last Years!
